together the "**Investment Assets**".

In pursuing a global investment strategy the Investment Assets will not be limited to the Fund's Base Currency.

Hedging policy

The Manager may where appropriate, including for the purposes of efficient portfolio management, management of investment risk and hedging, apply Hedging Strategies provided such strategies are consistent with the investment objectives, policies and restrictions of the Fund as set out herein.

The Manager may acquire Hedging Instruments provided that, in the opinion of the Directors, these Hedging Instruments are consistent with the investment objectives and are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value.

Investment restrictions

The Manager will invest and manage the Fund's assets in accordance with the Investment Policy as described above, spreading risk in accordance with the following investment restrictions:

- (i) Up to 90% of the Net Asset Value may comprise transferable securities admitted to an official listing of a stock exchange or on another regulated market which operates regularly and is recognised and open to the public;

- (iii) The Fund may not invest more than 10% of Net Asset Value in transferable securities other than those referred to in (ii) above;
- (iv) The Fund may invest up to 100% of its assets in Cash Instruments;

- (vi) The Fund will aim at matching assets and liabilities in the same currency and will avoid, where reasonably practicable, any direct exposure to currency risk;
- (vii) In accordance with the Hedging Policy, the Fund may acquire Hedging Instruments to employ Hedging Strategies provided that the total value of all cash and other property paid, transferred or deposited by way of a premium or initial payment would in respect of all other hedging transactions not closed out, not exceed 5% of the Net Asset Value of the Fund;
- (viii) The Fund may invest in forward transactions and derivatives, including futures, options and contracts for difference both for efficient portfolio management, hedging, to enhance portfolio performance and as a means of obtaining Leverage provided that the total value of all cash and other property paid, transferred or deposited by way of initial margin, variation margin, excess margin and the value of open positions shall not exceed 20% of the Net Asset Value of the Fund;

The above investment restrictions will not apply to an investment by the Fund in a company the whole of the share capital (or relevant class of share capital) of which is owned by the Fund and which is bound in turn by the same investment restrictions.

The above investment restrictions apply as at the date of the relevant transaction or commitment to invest. Changes in the Fund do not have to be effected merely because, owing to or in any way connected with appreciations or depreciations in value, redemptions or by reason of the receipt of, or subscription for, any rights, bonuses or benefits in the nature of capital or of any acquisition or merger or scheme or arrangement for amalgamation, reconstruction, conversion or exchange or of any redemption, any of the restrictions would thereby be breached, but regard shall be had to these restrictions when considering changes or additions to the Fund. If any of the above investment restrictions are breached, the Manager shall take as a priority objective all steps as are necessary within a reasonable time to remedy the situation, taking due account of the interests of the Shareholders.

Borrowing and leverage

The Fund may at any time employ Leverage of up to 66.67% of the value of Investment Assets at the time such Leverage is drawn down. There is no obligation to reduce Leverage if the degree of Leverage exceeds 66.67% through changes in the value of either the Leverage or the Investment Assets. Hedging Instruments will be taken into account for the purposes of the borrowing and Leverage limit that is outlined below.

For the purposes of efficient portfolio management, primarily for liquidity management, the Fund may also borrow up to 20% of its Net Asset Value.

Amendments to investment objectives and restrictions

The Directors are permitted to amend the preceding investment objectives, policy and restrictions (including any borrowing and hedging powers) applicable to the Fund provided that no material changes shall be made without providing Shareholders with sufficient notice to enable them to redeem their Shares before the amendment takes effect. Shareholders are not required to approve the amendment of the preceding investment objectives, policy and restrictions (including any borrowing and hedging powers) applicable to the Fund although the Directors reserve the right to seek approval if they consider it appropriate to do so. In seeking approval from the Shareholders as aforesaid the Directors may also request Shareholders to approve a general waiver of the aforementioned requirement to provide a Dealing Days' notice of the proposed amendments to the investment objectives, policy and restrictions (including any borrowing and hedging powers). Shareholders should note that the waiver, if passed, would apply to all Shareholders of the Fund regardless of whether or not they voted in favour of the waiver. In any case, such approval(s) would be sought by means of an Extraordinary Resolution of the Fund.

Risk profile

The Fund is a medium risk Fund that may utilise Leverage to enhance performance and increase the exposure of the Fund.

Dividend and distribution policy

The Directors do not anticipate that any dividends or distributions (other than redemptions) will be paid.

No listing

No application has been made for the Shares to be admitted to listing on any stock exchange.

Prime broker

The Fund may invest in forward transactions and derivatives, including futures, options and contracts for difference both for efficient portfolio management, hedging, to enhance portfolio performance and as a means of obtaining Leverage via an account held with the Prime Broker. The Prime Broker requires a margin to be held for transactions in financial derivatives and the Manager in conjunction with the Prime Broker will manage the margin on a daily basis to ensure compliance with the 20% limit.

Cash held by, or deposited with the Prime Broker by way of margin will not be segregated from the Prime Broker's own investments and if the Prime Broker defaults the Fund may not be as well protected as if the assets were held in a typical sub-custodian relationship. The Prime Broker may not give client money protection to cash deposited with it (by way of margin). The Fund's cash is not segregated from the Prime Broker's own cash and may be used by the Prime Broker in the course of its business. The Fund ranks as one of the Prime Broker's general unsecured creditors for the cash balance. In the event the Prime Broker becomes insolvent the Fund may not be able to recover the cash balance in full or at all.

The Commission has agreed to modify rule 4.05(2) of the Rules relating to the Custodian's responsibility for the safe custody of all of the scheme property of the Fund so that, subject to the following limitations, certain classes of assets may be held by the Prime Broker. The classes of assets which may be held by the Prime Broker (and which are therefore not taken into the custody or under the control of the Custodian) shall be limited to those assets necessary to enable the Fund to undertake trading in, but not limited to, forward transactions, futures, options and contracts for difference for efficient portfolio management, hedging, to control risk and enhance portfolio performance and to employ Leverage. The maximum exposure the Fund may have to the Prime Broker (which includes initial margin, variation margin, excess margin and the value of open positions) shall not exceed 20% of the Net Asset Value of the Fund. The Custodian assumes no responsibility in respect of the assets held by the Prime Broker.
